

Medical Practice Advocacy

Chart Auditing Essentials

The Colorado Medical Society and the Association of Health Care Auditors and Educators would like to invite you to participate in this dynamic, information packed webinar. This program will be highly useful to coders, auditors, office administrators, compliance professionals and providers. Learn what auditing is about, what the auditors are looking for and how to safeguard your practice in the midst of scrutiny.

Nowadays, it is no longer "IF" your practice will experience an audit, but "WHEN." Various types of audits exist and knowing how you will suffice in the midst of a RAC, CERT, Medicare, commercial carrier or any type of audit, is critical.

Are you ready? If not, you won't want to miss out on this important webinar!

Your presenter, Robin Linker, CHCA, CPC, CPC-H, CCS-P, CPC-P, MCS-P, CHC is a leading expert in health care coding, auditing, education and documentation nationwide. She is the Executive Director of Operations and CEO of [Robin Linker & Associates](#), a nationally known healthcare consulting firm in Colorado.
