

AMA DELEGATION ELECTION Personal Statement

Alethia (Lee) Morgan, MD, FACOG, Personal Statement for Election to the Colorado Medical Society Delegation to the American Medical Association

I have had the honor and privilege to serve the physicians of Colorado in multiple capacities over the past 30 years. I have served as President of the Pueblo County Medical Society, the Colorado Gynecology and Obstetrics Society and the Colorado Medical Society (CMS). I currently Chair the Colorado Section of the American College of Obstetrics and Gynecology. I have participated on every major council of the CMS. I served as Chair of the Council on Legislation for 11 years. I am a Past Chair of the COMPAC Board of Directors as well. I have served on the Physicians Congress and the ad hoc Committee on Patient Safety and Physician Accountability, to mention a few.

I have been a member of the AMA since 1978 and an active member of our AMA delegation for 19 years. I served as Co-chair of the Colorado Delegation to the AMA for two years and now have, for eight years, served as Chair of the delegation. At the AMA I have been active within the prior Western Mountain States Conference, having served as Treasurer and Chair. I played an active role in the merger of the PacRim Conference with the WMSC into the PacWest Conference, currently serve on the Nomination Committee and as the Councilor Representing District 4 (Colorado, Wyoming, Idaho, and Montana) for six years on the PacWest Governing Council. I served on the OSMAP Steering Committee for three years and am currently Treasurer.

My practice experience includes a large multispecialty group as well as a smaller single specialty group. I have practiced in both a large urban environment and a more rural environment. As an Obstetrician/Gynecologist I am at times considered a primary care and at times a specialist. This varied background gives me the ability to look at all sides of an issue.

I have the leadership experience, the experience of listening to multiple points of view and helping forge consensus, as well as strong interest and concern about the issues that affect the practice of medicine today. These last decades have been a time of many changes and challenges for physicians. It is more important now than ever that we work together as a cohesive force in organized medicine on a local, state, and national level.

I have a long interest in legislation affecting the physicians of Colorado and the nation.

I believe that, with your support I can continue to contribute significantly to organized medicine on a local, state, and national level. It is for this reason that I ask for your vote to return me to the AMA delegation so that I can continue to represent you as we move forward in these interesting and difficult times.

Professional Work History

Physician Patient Safety and Risk Management 2007 - 2022

COPIC, Denver, CO

Responsibilities: Patient safety, quality improvement, and risk management assessment and education for COPIC, a physician and hospital liability insurance company, primarily operating in Colorado and Nebraska. My primary responsibility is obstetrics and gynecology, but

responsibilities also include both general and other specialty areas. This covers physicians, other healthcare providers, staff and hospitals. Regular travel around both Colorado and Nebraska to talk with physicians in a variety of practice locations and types. Speaking at national patient safety and risk management forums such as the PIAA as requested.
